

CSCE Undergraduate Handbook 2010-2011

The purpose of this handbook is to summarize the Computer Science and Computer Engineering undergraduate programs.

It is the *students' responsibility* to consult the University Catalog of Studies and their faculty advisor when planning a program of study.

Departmental Contacts:

Department Head – Dr. Susan Gauch, sgauch@uark.edu

Associate Department Head – Dr. Gordon Beavers, gordonb@uark.edu

Main Office – 479-575-6197

<http://www.csce.uark.edu>

2. CSCE Department Information

Academic Advising:

Students are assigned a CSCE faculty advisor their first semester of enrollment in a CSCE program. Typically, this advisor will remain with the student throughout their academic career. Students can find the name of their faculty advisor in the ISIS system or by contacting the CSCE Department at 479-575-6197.

Faculty contact information can be found at <http://www.csce.uark.edu/2211.php>

How Advising Works:

Priority Registrations are held in the fall and spring semesters, allowing currently enrolled students to register for classes prior to new students entering the university. Students are strongly encouraged to register during these periods because certain classes tend to fill up fast and low enrollments could mean that classes get cancelled.

Students must see their advisor prior to any registration periods to review the course plans, answer questions, and get assistance with any academic problems. Advising periods are scheduled the week before Priority Registration begins.

Advisors will be provided with updated materials to assist in advising prior to registration periods.

How to Get Advised:

The first step to get advised is to complete a copy of the Advising form, which can be found at <http://www.csce.uark.edu/2218.php>.

Complete the form and list the courses that you plan to take the following semester. Schedule a time with your faculty advisor during their posted advising times. The advisor will review the schedule plan and verify that pre-requisites have been met. This is also a good opportunity to talk about career plans, co-ops, and other academic issues.

The completed form must be signed by the student and the advisor and submitted to the Administrative Assistant in JBHT 504. The advising hold will then be removed.

Degree Program Changes:

Students must meet all requirements of their degree programs and are expected to keep informed concerning current regulations, policies, and program requirements in their field of study. Changes made in curriculum at a level beyond that at which a student is enrolled might become graduation requirements. Changes made in the curriculum at a lower level than the one at which a student is enrolled are not required for that student. Students should consult their faculty advisor for additional information.

CSCE Majors:

The department offers the following undergraduate degrees:

- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Arts in Computer Science (granted through the Fulbright College of Arts and Sciences)

In addition, the department also offers the following graduate degrees:

- Master of Science in Computer Engineering
- Master of Science in Computer Science
- Doctor of Philosophy in Computer Science
- Doctor of Philosophy in Engineering with a major in Computer Engineering

Strong students can receive support for their graduate studies through graduate assistantships. For more information and application procedure visit the Graduate School website <http://www.uark.edu/depts/gradinfo/>

Changing Majors:

Any student interested in changing their major to Computer Science or Computer Engineering should first visit with the Associate Department Head.

Students wanting to switch from CS to CE or CE to CS should discuss this first with their faculty advisor. The first two semesters of study are identical, so the transfer at that point is easy. There are minor differences in the in the third and fourth semester that still allow for change. After the fifth and sixth semester there are differences that might create some issues (such as having to take more coursework).

Completion of the forms to process the change of major should be done in the Academic Student Office in Bell 3189.

3. Degree Requirements Information

3.1 CSCE Honors Program

Admission requirements for the Honors Program are as follows: entering freshman must have at least a 3.5 high school GPA and at least 28 composite score on the ACT; entering transfer students must have a 3.25 GPA on their transfer work. Students who do not qualify initially for the Honors Program are eligible after one year if they earn at least a 3.25 GPA.

Application for the Honors Program must be made through the Academic Dean's office in Bell 3189.

The department considers the following requirements necessary to graduate with honors:

- The candidate must satisfy the requirements set forth by the College of Engineering.
- A student must obtain at least a 3.5 grade-point average in required Computer Engineering and/or Computer Science courses.
- The student must complete a total of 12 hours. Seven hours of Honors credit in the major, which includes 4 hours of Honors Thesis taken as two consecutive semesters of CSCE 4912H and 3 hours of non-thesis class work.

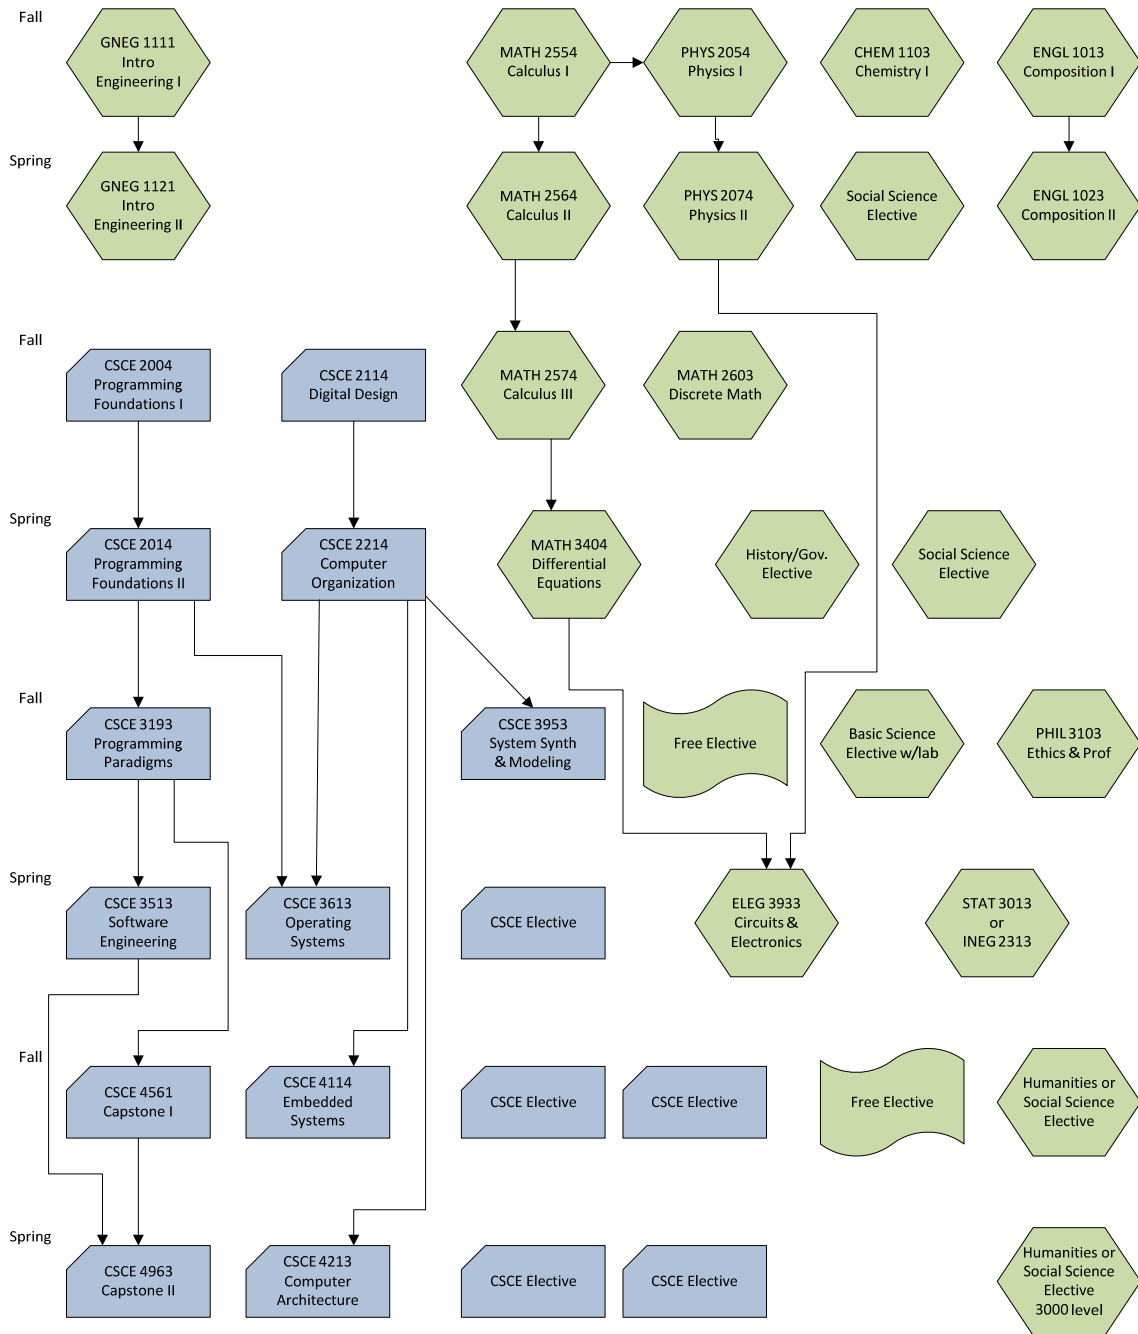

Guidelines for completion of the honors program and required forms for submission of thesis and verification for degree completion can be found at <http://www.csce.uark.edu/2309.php>

3.2 Computer Engineering B.S.

The following information pertains only to the Computer Engineering program. The flowchart and degree check summarize the degree requirements. The degree check is a useful tool to track progress through the program and is a condensed version of the form submitted for graduation clearance. The eight-semester program of study can be found in the Catalog of Studies.

3.4 CSCE B.S. Common Information

CSCE Basic Science Electives

Courses with Lab*:

ASTR 2003 Survey of the Universe
ASTR 2001L Survey of the Universe Lab

BIOL 1543 Principles of Biology
BIOL 1541L Principles of Biology Lab

BOTY 1003 Environmental Science
BOTY 1001L Environmental Science Lab

CHEM 1123 University Chemistry II
CHEM 1121L University Chemistry II Lab

GEOL 1113 General Geology I
GEOL 1111L General Geology I Lab

BIOL 1613 Principles of Zoology
BIOL 1611L Principles of Zoology Lab

BIOL 2213 Human Physiology
BIOL 2211L Human Physiology Lab

Courses without Lab*:

GEOL 4253 Petroleum Geology
CHEM 1101L Univ Chemistry I Lab

GEOL 4413 Remote Sensing
CHEM 1101L Univ Chemistry I Lab

*If the lab is not required for the associated course – students may opt to take CHEM 1101L, University Chemistry I Lab

CSCE B.S. Technical Electives

The CSCE Technical electives can be chosen from any CSCE 4000+ course except CSCE 490V, Individual Study.

In addition, the Computer Engineering students can choose to take the following course:

ELEG 3923 Microprocessor System Design

CSCE B.S. Humanities/Social Science Electives

All students at the University of Arkansas-Fayetteville are required to meet the University Core (State Minimum Core). If the core is not met, it could affect graduation. For specific course listings see page 40 of the Catalog of Studies.

All CSCE Students are required to take:

- **3 hours** of Humanities or Fine Arts numbered from the following list:
 - Fine Arts – ARCH 1003, ARHS 1003, ARTS 1003, COMM 1003, DANC 1003, DRAM 1003, HUMN 1003, LARC 1003, MLIT 1003

- **3 hours** U.S. History or Government

Choose one of the following:

HIST 2003, HIST 2013, PLSC 2003

- **9 hours** of Social Science

Courses must be taken from at least two different departments:

AGEC 1103, AGECE 2103

ANTH 1023

ECON 2013, ECON 2023, ECON 2143

GEOG 1123, GEOG 2003, GEOG 2023

HESC 1403, HESC 2413

HIST 1003, HIST 1013, HIST 1113, HIST 1123, HIST 2003*, HIST 2013*,

HUMN 2114H

PLSC 2013, PLSC 2203

PSYC 2003

RSOC 2603

SOCI 2013, SOCI 2033

*If not selected to meet the History/Government elective

- **6 hours** of 3000+ Humanities or Social Science

PHIL 3103 (this is a required course for CE & CS B.S. majors)

Any course numbered 3000 or above selected from the approved list at

<http://csce.uark.edu/Humn-Social-electives.pdf>

Computer Engineering majors have two options to fulfilling the humanities/social science requirement and must pay careful attention to completing either Option 1 or Option 2:

Option 1

History/Government

Social Science

Social Science

Social Science

PHIL 3103

Humanities 3000+

Option 2

History/Government

Social Science

Social Science

Humanities

PHIL 3103

Social Science 3000+

Computer Science B.S. majors have an additional 6 hours of humanities/social science requirement beyond the State Minimum Core. The additional 6 hours may be satisfied by any humanities or social science course.

CS Humanities/Social Science

History/Government

Humanities

Social Science

Social Science

Social Science

Humanities or Social Science

PHIL 3103

3000+ Humanities or Social Science

3.5 Computer Science B.A.

The following information pertains only to the Computer Science Bachelor of Arts degree. More information on the program can be found in the Fulbright College section of the Catalog of Studies. The BA Core Requirements are listed on page 200 of the Catalog of Studies. B.A. students are strongly encouraged to meet with an advisor in the Fulbright College in addition to their advisor in the CSCE Department. Fulbright College requirements must be met and any changes that might affect graduation should be checked with through their Advising Center.

Fall Semester Year 1

- 3 ENGL 1013 Composition I
- 3 CSCE 1013 Explorations in Computing
- 3 Core from areas a, b, c, d or e (as needed)
- 3 Core from areas a, b, c, d or e (as needed)
- 3 Free elective

15 Semester Hours

Spring Semester Year 1

- 3 ENGL 1023 Composition II
- 4 CSCE 2004 Programming Foundations I
- 3 Core from areas a, b, c, d or e (as needed)
- 3 Core from areas a, b, c, d or e (as needed)
- 3 Free elective

16 Semester Hours

Fall Semester Year 2

- 4 CSCE 2014 Programming Foundations II
- 3 Core from areas a, b, c, d or e (as needed)
